

PEAKWORK
THE PLAYER HUB NETWORK

FLEXIBLE AND HIGHLY CUSTOMIZED: MULTI COMPONENT TRAVEL PACKAGING

More and more travelers are searching for individual, personalized round trips with a flexible combination of travel components. With Peakwork and Nezasa technology, we take inspirational and unique travel experiences to the next level.

Profit from high performance search technology combined with flexible planning and booking tools. With only one API, you will be able to connect to the Peakwork Hub with endless possibilities of search & booking options – soon available for multi component packaging.

YOUR ADDED VALUE

- Highly personalized packages
- Upselling possibilities for tour operators and travel agents
- Optimized user experience for end customers
- Time saving: One system to search & book all individual components
- Peakwork high-performance cache: Prepared for mass-traffic with fast search results

INDIVIDUAL 2 WEEK TRIP IN SPAIN

Example for a multi component roundtrip managed in one tool – in cooperation with Nezasa.

Users can create complex travel routes according to personal requirements in a few simple steps.

In cooperation with **nezasa**
